

JONATHON SKEEN

SUMMARY

Dynamic leader and founder with expertise in AI and software development, having successfully unified and led the Collegiate Entrepreneur Organization Chapter. Architected privacy-focused digital solutions at Skevia L.L.C., enhancing workflow automation. Proven ability to bridge business and technical domains, fostering innovation and collaboration. Skilled in driving strategic initiatives and delivering impactful results.

EXPERIENCE

President

Collegiate Entrepreneur Organization (CEO) Chapter | Athens, USA | May 2026 - Current

- Lead the newly unified CEO Club (following a successful merger with the Bobcat Entrepreneur & Startup Team), uniting campus resources to support student founders and innovators.
- Re-envision the organization to bridge the gap between business strategy and technical engineering.
- Organize and manage cross-campus networking events, collaborative pitch competitions, guest speaker series, and hackathons.

Founder & Software Developer

Skevia L.L.C | Marietta, USA | March 2026 - Current

- Architect and developer of a suite of privacy-focused digital studios designed to eliminate software fragmentation and streamline professional workflows.
- Build and integrate Veks AI, an intelligent central layer that enables seamless communication between tools and automates complex workflows.
- Design and launch Vocari, a universal translation layer that intercepts OS error dialogs and translates them into plain-English, actionable guidance.
- Drive the core mission of practical automation, intelligent workflow integration, and real-world usability across various industries.
- A startup dedicated to building ethical, privacy-focused digital workspaces and intelligent automation tools.

Student Assistant Programmer

Silfex | Springfield, USA | June 2025 - August 2025

- Developed and deployed automation scripts to support quality assurance processes for internal web applications, ensuring consistent functionality across multiple environments.

Laborer

Isaly Renovations Ltd | Marietta, USA | May 2024 - August 2024

- Collaborated with team members to complete construction assignments on schedule.
- Coordinated with team members to maintain efficient workflow throughout the workday.
- Installed insulation into walls using blow guns or similar tools while adhering to safety guidelines.
